Opening Fall Enrollment 2019

This report highlights preliminary data on fall enrollment submitted by Maryland colleges and universities. Final enrollment figures presented later in the year may differ slightly from those included in this report.¹

Statewide and among each sector, the total headcount enrollment for Fall 2019 declined from last year. Total enrollment is 352,098, a decrease of 7,480 (or 2.1%) from the Fall 2018 enrollment of 359,578.² Decreases in college enrollment, however, are in line with national trends.³

Fall enrollment at the community colleges saw a decline for the eighth consecutive year. Enrollment declined by 1.3%, from 115,007 in fall 2018 to 113,495 in fall 2019, which makes this year's enrollment the lowest since 2005 when 119,142 students were enrolled. Enrollment at the public four-year institutions declined by 2.2%, from 185,735 in 2018 to the current fall enrollment of 181,729, ending the five-year trend of annual increases. State-aided independent institutions and other private institutions saw the largest percentage decrease of 3.3% (from 58,836 to 56,874).

This year, enrollment for both undergraduate students and graduate students decreased. Undergraduate enrollment is 279,963 (down from 286,742 in 2018) and graduate enrollment is 72,135 (down from 72,836 in 2018). Full-time undergraduate enrollment is 152,234 while part-time undergraduate enrollment is 127,729.

First-time, full-time student enrollment is 35,206 which is a 3.7% decline from last year (36,548). This shift may be driven, in part, by the trend of the state's public high school completers. Although the trend of public high school completers has flattened the past few years, projections estimate Maryland will see an increase in public high school graduates from 2021 to 2025.⁴

For a visual representation of the described data, please see Figures 1 through 3 on the following pages.

¹ These data represent enrollments as of October 15, 2019 at all Maryland colleges and universities, as reported by institutions. Data from the institutions are submitted in aggregated form and in the categories reflected in the report. The official enrollment data obtained from the institutions later in the fall usually reflect higher counts.

² The source of the 2018 data is the fall Enrollment Information System data; all enrollments for Fall 2018 are as of the institution's official census date, which is commonly the last date to register for or drop classes.

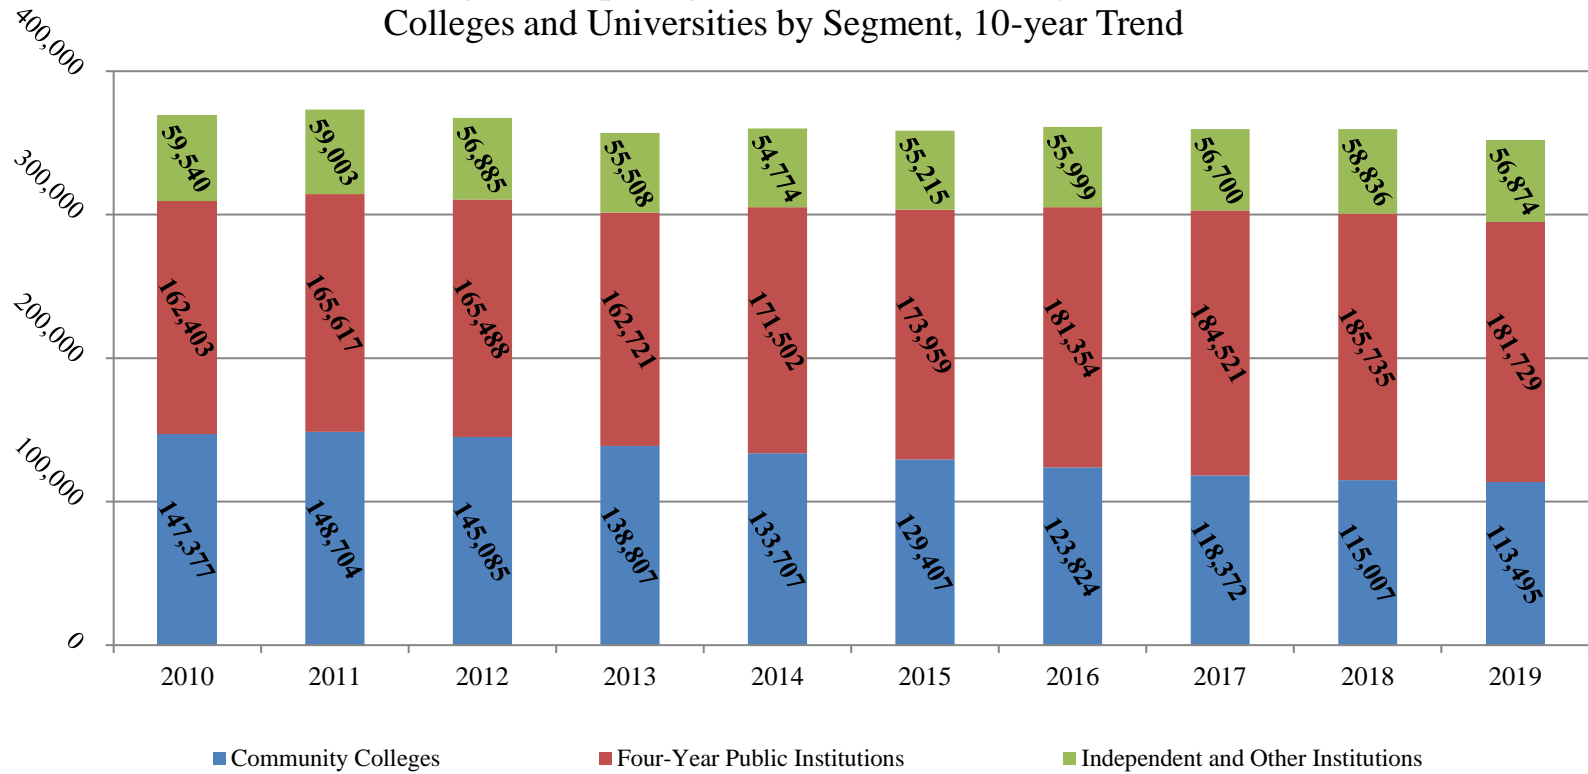

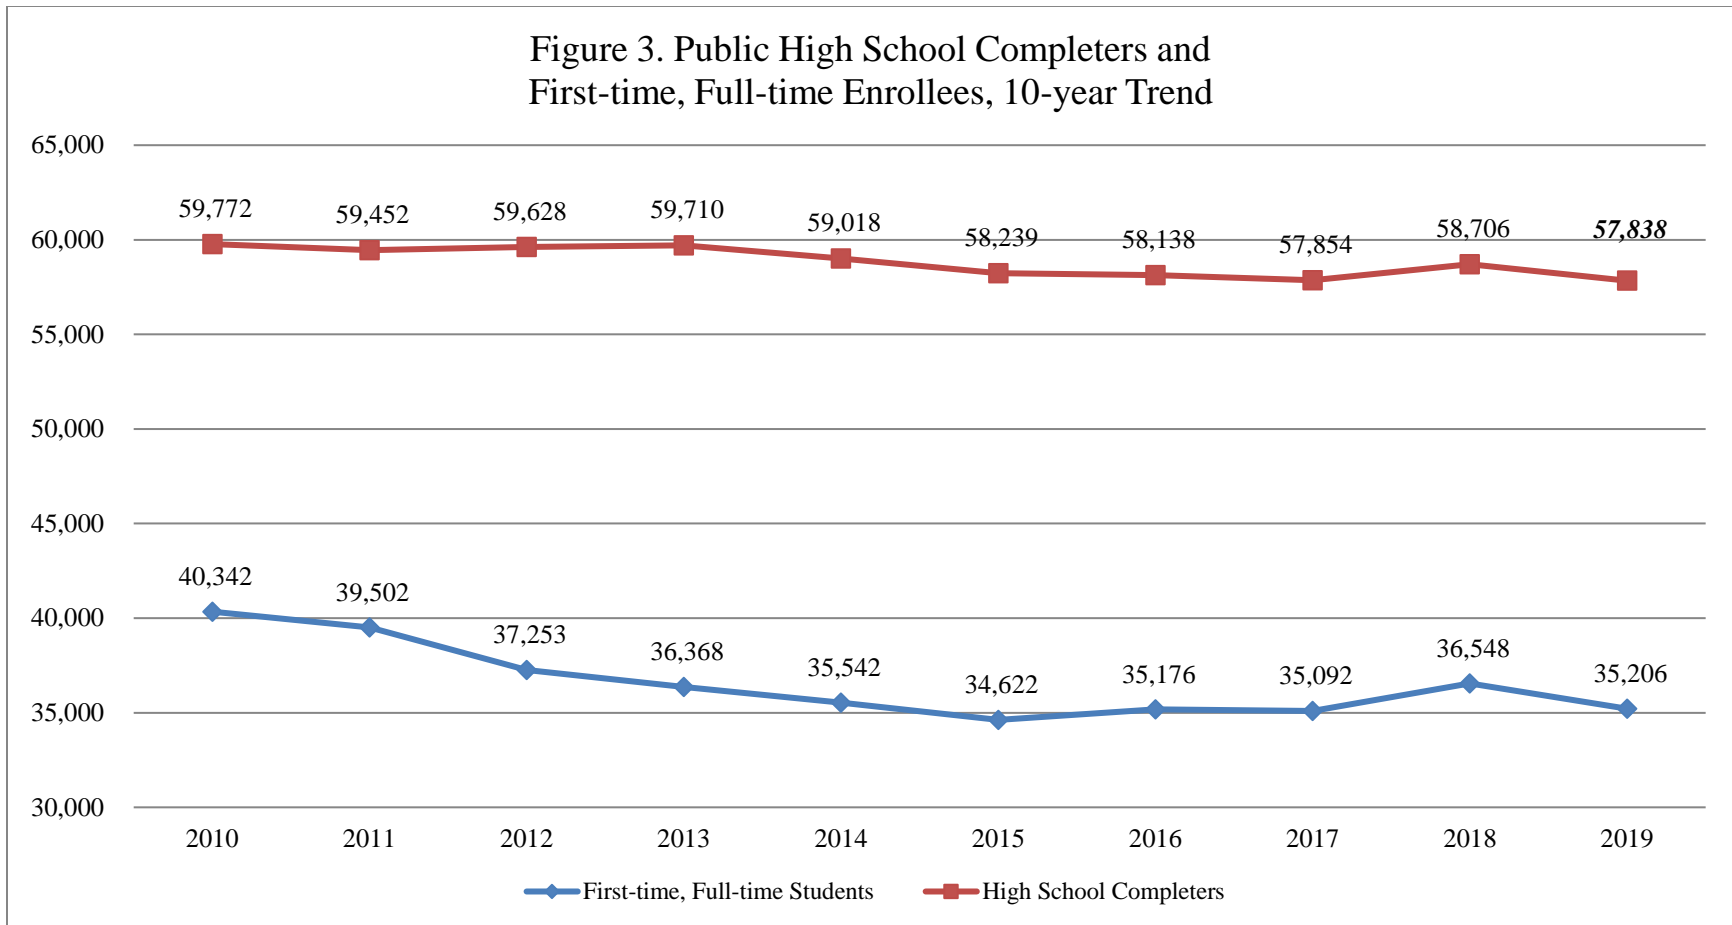

Figure 3. Public High School Completers and First-time, Full-time Enrollees, 10-year Trend

Notes: The 2019 High School Completers figure is an estimate.⁵ A student at any age who is enrolled in college for the first time and attending on a full-time basis is a first-time, full-time student. High school completers are a portion of this population.

⁵ MHEC’s estimate for the number of high school completers is 57,838. This estimate was developed by applying the percentage of 12th graders in 2017–2018 who completed high school (97.5%) to the number of 12th graders in 2018–2019 (59,321).
